COTTY

Matt-Finished Cotton Embroidery Thread

Natural Thread with a Matt Finish

Cotton, linen, corduroy, felt and velvet: fabrics like these want to be embroidered with natural threads. COTTY is made of 100% cotton, with a vast choice of colours and a silky-matt finish, for producing incredibly stunning embellishments – from bold patterns to fine hemstitch embroideries. The matt finish, however, can also create extraordinary effects in combination with high-sheen embroidery threads! COTTY is available in different strengths: for delicate embroideries or as COTTY 12 for the typical needlework look.

GUNOLD[®]

Processing Recommendations:

- ◆ **Needle:**
Use needle ORGAN No. 90/14 SES with thread strength 12, and standard needle Organ No. 75/11 SES with thread strength 30.
- ◆ **Bobbin Thread:**
For best results, use BOBBY COT 100.

- ◆ **Tip!**
For embroideries on coarse fabrics, SOLVY will prevent stitches from disappearing in the fabric, thus enhancing that special needlework touch.

Care Instructions:

Technical Information:

- ◆ **Upper thread with matt finish**
- ◆ **Material:**
100% cotton
- ◆ **Strength 30:** Nm 50/2; dtex 200/2
Strength 12: Nm 30/2; dtex 330/2
- ◆ **Colour range:**

- ◆ **Special sample kit:**
Boxed assortment with 1 spool of COTTY 30 in each colour.

- ◆ **With Oeko-Tex Certificate:**
Tested for harmful substances.

- ◆ **Make-up:**
Strength 30: spools of 25 g each
 cones of 5000 m each
Strength 12: cones of 2500 m each
- ◆ **Dispatch and packing size:**
1 carton = 10 spools
10 cones = 1 carton

Product Range – Upper Threads

SULKY	Viscose thread made of 100% ENKA viscose, with a silky smooth shine, available in more than 300 colours!
METY	Metal-coated yarn for glamorous, shiny effects.
GLITTER	Glittery foil yarn for shiny and metallic effects.
POLY	Extremely durable yarn made of 100% polyester, highly tear and rub resistant, plus colourfast to chlorine – ideal for working clothes and all heavily-strained items.
FILAINÉ	Embroidery thread made of 100% acrylic, but with a higher degree of tear and rub resistance than wool embroidery threads. Looks like »handstitched«!
MONO	The »transparent« monofilament thread made of 100% polyester – for transparent embroideries and for attaching sequins and ribbons.
SOLAR	Colour-changing polyester yarn: The white yarn changes colour into one of 7 different tones available in natural or artificial UV light.
GLOWY	Thread made of 100% polyester that glows in the dark. The thread absorbs natural or artificial light making it fluorescent in the dark – the well-known disco effect!
FLUOR	Thread made of 100% polypropylen that absorbs natural or artificial light, with a yellow-green fluorescence in the dark.

Professional materials for high-quality embroidery results – tried and tested in the clothing, promotion and home textile industries. For more information visit our website www.gunold.de!
