FILAINE

Acrylic Embroidery Thread with a Woollen Feel

High-Quality Embroideries – Like Handstitched!

Whether precious embroideries on woollens or knits, vintage-style patterns for traditional costumes, or colourful ethnic clothes: FILAINE is the expert for rustic embroideries with that typical needlework look. Despite its fine woollen structure FILAINE is extremely robust during processing and particularly convincing through high tear and rub resistance.

Processing Recommendations:

- ◆ **Needle:** Use ORGAN No. 90.
- ◆ **Bobbin Thread:**
For best results, use BOBBY SYN 100, BOBBY FIL 120 L.
- ◆ **Designs:**
Only for embroidery programmes designed for such strong yarns.
Important: Widely laid-out, a minimum of short stitches, preferably with only few or no underlay stitches.

- ◆ **Tip!**
For embroideries on coarse fabrics, SOLVY will prevent stitches from disappearing in the fabric, thus enhancing the special needlework touch.
