

# FILAINE

## Processing Recommendations:

- ◆ **Needle:**  
Use ORGAN No. 90.
- ◆ **Bobbin Thread:**  
For best results, use BOBBY SYN 100, BOBBY FIL 120 L.
- ◆ **Tip for embroidery designs:**  
Only suitable for embroidery programs designed for such heavy threads.  
Important: large design, few short stitches, preferably with few or no underlay stitches.

### Care Instructions:

- ◆ **The special tip!**  
After embroidering, roughing up – with FILAINE / COTTY 12  
After embroidering, treat the areas of a motif that you would like to have a furry look with the special brush „FILAINE BRUSH“.

## Technical Information:

- ◆ **Upper thread**
- ◆ **Material:**  
100% acrylic thread
- ◆ **Strength 12:**  
Nm 34/2; dtex 296\*2

**Tip!**  
For embroideries on coarse fabrics, SOLVY will prevent stitches from disappearing in the fabric, thus enhancing the special needlework touch.

- ◆ **Minimum order:**  
1 cone of 1.000 m

### Range of colours:

Discover all 129 colours  
– interactive at [www.gunold.de](http://www.gunold.de)  
– real thread colour card

### Especially for patterning:

- Drawer box with 1 mini-king cone of 400 m in each of the 129 colours.
- Drawer box with 1 mini-king cone of 400 m each of the 27 most popular colours.

Particularly tear-resistant, can therefore be processed at high machine speeds!

Professional materials for high-quality embroidery results – tried and tested in the clothing, promotion and home textile industries. For more information visit our website [www.gunold.de](http://www.gunold.de)!
